

BEST MONEY STRATEGIES, INC. NEWSLETTER

Volume 1 / Issue 1

A RECENT SUCCESS

In addition to educating our Clients on the advantages of investing in Discounted Real Estate Notes, Best Money Strategies, Inc. has begun its FOREX Asset Management operations for its Clients.

Our Mission remains solid: Provide our Clients with Contrarian investment options that most people are afraid of or unaware of how it truly works. Let us show you how to put “scary” money to work and back in your control.

Manny Gathers (R to L), post radio interview in Chicago with the Host, Mark Imperial (AM 560).

GET STARTED RIGHT AWAY

The overall theme of this Newsletter is to help you take action! Many folks are terrified of the typical markets and systems of today because they have very little control. Time to put your money back to “work ASAP”!

HOW?

Let's see...

Q: How does the FOREX really work?

A: Over \$5 trillion dollars are traded each day in the FOREX market which makes it the least risky from a liquidity stand-point (in & out in minutes).

Q: Can I really make money in the FOREX? How?

A: Learn to trade like the Banks & Market Makers & let us teach the basic overview of a Superior system to trade more successfully & consistently.

“Having the greatest amount of control possible for every investment is Financial Investing – 101. That’s lesson #1.” – Manny G.

GET THE PICTURE

Using a FOREX-Managed Account is an ideal way to learn & participate in that market while gaining solid & quick returns (monthly) on your money.

We teach you the basic FOREX market overview and tools required to operate. You keep a birds-eye view & control of the operation.

You can learn our System in less than 30-mins and open your trading account with as little as \$500 but more is recommended.

My recommended "Book of the Week" to help shape your investing BRAIN...

LET IT FLOW

We actively trade the US, European, & Asian sessions each day and utilize our proprietary system to target at least 100 PIPS per day.

For example, our primary strategy is to target a 1-4% gain per day or a minimum gain of 25% per month in overall Portfolio Balance. **Using Strict Risk Management & Trading Discipline, we could double our Portfolio Balance in less than 4-months for our Clients.**

HAVE MORE TO SAY? FACTS ABOUT OUR SYSTEM?

- You never transfer any money to us, PERIOD!
- You must open your personal trading account with the same Broker that we are using. You simply "Link" your account to ours which allows us to trade on your behalf ONLY.
- You and only you have access to your account at all times. The only access we will have to your money is when we place a trade. An executed trade will remove the percentage from every Client's account based upon your settings. This is an automatic step that is completed in every Client's account based upon software instructions only (again, we have zero direct access to your acct).
- You can check our performance by the hour, by the day, by the week, or by the month; you have that control to decide if you wish to continue with us.
- If we can't generate a Profit for you within 30-days or if we have truly awful trades within those 30-days, you can delink or close your account at

your choosing (any day & any hour). You have complete control of your acct. The only money you can't stop is money in your account that is already committed to a trade; the rest is up to you!

- Our **Performance Fee is 30%** of generated profits only (entire Portfolio). Basically, we get 30% of the winning portion only. **2nd Fee of 2 PIPs** per trade is received by us (for Brokering the deal).
- You sign a **Limited POA** that allows us to only trade on your behalf and never gain access to your account.
- Based upon Finance Investing – 101 Rule #1, you have the most control of your investment for the life of that investment when you utilize our Company to be an FOREX Asset Manager for you.
- We will provide you with basic learning and FOREX market overview.
- We will teach you some of the basic tools and systems that we use to trade; nothing "Top Secret" of course.
- We will provide you with our Basic trading strategy, goals & objectives.
- We will provide you with regular performance updates via email or Newsletter or summary.
